ISLA Project Descriptions

Professional Lifeguard Training

The International Surf Lifesaving Association has a dedicated and qualified training team that conducts multiple day professional Lifeguard Training Courses, Introduction and refresher courses in Aquatic Rescue and First Aid, and short lifeguard and first aid workshops for community members or employees. The ISLA training team-teaches basic to advanced techniques in aquatic rescue, first aid, CPR, and vocational lifeguarding skills. ISLA Issues the following certifications:

Basic Open Water Lifeguard- 30 hour course

Intermediate Open Water Lifeguard- 50 hour course

Advanced Open Water Lifeguard- 100 hour course with CPR and AED

Volunteer Lifeguard Mission

ISLA volunteer lifeguard missions consists of teams with 4-25 certified ISLA volunteer lifeguards that manage aquatic risks and perform rescues for a specified time ranging from a few days to 3 weeks or more. ISLA Volunteer Lifeguard Missions are ideal for managing holiday crowds, special events, or surf/windsurf contests.

Lifeguard Agency Development and Organization

ISLA serves in a rescue-consulting context to national rescue agencies and private hotel groups and organizations. We help by utilizing different strategic rescue models that aim to maximize resources and prevent death by drowning in beaches, rivers, and pools. ISLA is also consults in rescue agency/business management to help improve the quality of service and rescue capabilities or a given organization.

JR. Lifeguard Kids Camp

Many ISLA volunteers are current and former Jr. Lifeguard Instructors in California, and conduct week or two week Jr. Lifeguard Camp projects abroad. The camps primary focus is aquatic education that focuses on improving swimming techniques, teaching about aquatic risks and safety, and the development of conservation consciousness. The camp is a fun and energetic program designed for children and adolescents ages 6- 15 and conducted by certified ISLA volunteer lifeguards.
